Jeremiah was inquiring about the ag commission participating in the summer celebrations organized by the recreational committee on July 15th. The answer was "yes" we would do what we did last year. Included would be a syrup tasting contest, a booth, and Alison would bring some animals up for the kids to see and pat. Further details will be ironed out at later discussions.

It was discussed about having a community list to assist other town groups to promote agriculture and provide supportive documentation. Any discussions about town ordinances should have some open forums to educate anyone interested.
