

Conservation Commission
Memorial Building

11/3/22
7:34 pm

Draft minutes until approved by the CC.

Members Present: Tim, Brooks, Ken, Emily and alternate Daphne
Selectboard Rep: None Present

Minutes: Ken made a motion to accept October Minutes.....Emily seconded, all were in favor

First order of business was a Springfield resident (Sandy) who lives on the shore of Lake KOLELEMOOK was letting the board know that United Construction was going to be improving drainage on her property with a series of new culverts and swails. DES has been there and was in the process of approving the application.

Town Lots: Tim has flagged a new trail on Kinsman's piece, labelled (Boulderdash). Daphne thinks a bridge will be necessary to cross a small drainage on the neighboring loop trail.

Collins Park clean-up and potential tree removal is "shelved" for the season

Wetlands and watershed: No new news

Outreach: A few names were mentioned as new possible members of the Commission. Members are attempting to track these folks down and pose the question.

Communication/Misc. Emily discussed with NRCS representatives possible grants and workshops. Kieth Cutting thought having these reps present for a potential workshop and grant discussion in January for those interested would be helpful to many.

Ken mentioned the state is formulating a harvest plan for an upcoming entry behind the Twin Lake Villa property

Zoning/Planning board info: future sand shed area is completed and looking great.

Meeting Adjourned at **8:13pm**

Submitted by: Brooks Weathers, filling in for the secretary.
