- Button, Ni-Cad, Lithium, and Rechargeable Batteries

...And much more... give a call or visit http://hhw.uvlsrpc.org

**NOT TO BRING:**
- **Aerosol cans, empty:** Recycle with scrap metal. Talk to your town. (Bring cans with product in them to collection.)
- **Ammunition and explosives:** State Police at 271-3636.
- **Asbestos:** Get a licensed asbestos specialist. Asbestos is hazardous to your health—don’t remove it yourself!
- **Batteries, alkaline:** Most non-rechargeable batteries (AA, AAA, C, D, and 9-volt) are trash in NH. If in doubt, just bring to collection. Tape 9-volt terminals before disposal to avoid fire in your trash!
- **Batteries, automotive:** Take to parts store for cash or your transfer station
- **Fire extinguishers:** Recycle empty extinguishers (NRRA takes from towns).
- **Fluorescent lights:** May be taken at your town facility. Check with your town.
- **Food Co-ops and Home Depot may take CFLs (spiral bulbs), not tubes.
- **Latex paint:** Use kitty litter, sawdust, or shredded paper to dry out latex paint; throw in your trash. Empty, dry metal cans may be recycled as scrap metal at your recycling facility. If it says “clean up with soap and water,” it’s latex.
- **Medical sharps:** Place in a rigid container (e.g. detergent bottle), seal cap with duct tape, and label container with marker, “Sharps, not for recycling.” Dispose of with regular trash by handing to a waste collector—can become a projectile if compacted in trash. Lebanon Police Station accepts some sharps.
- **Medicine:** See www.twinstatesafemeds.com for police stations taking meds.
- **Propane or helium tanks:** Propane/helium tanks can be exchanged/refilled at a distributor; or contact town transfer station about empty tanks.
- **Used motor oil:** Take to town transfer station or a service station for recycling.
